Therapeutic Herbal Repertory

Creams and Salves for the topical treatment of minor skin conditions

About the Ingredients

Base Ingredients
Calendula, Comfrey and Chickweed creams are imported from England. They contain infused herbal oils with purified water, glyceryl monostearate and steryl alcohol (vegetable extracts of fatty alcohol derivation). They are preserved with tincture of Benzoin. All base ingredients are totally vegetarian.

Base cream is made in the same way but with a plain vegetable oil instead of an infused herbal oil.

Beeswax - used to set salves, has a slightly antibacterial action in the end product.

Essential Oils
Benzoin - nourishing and enriching to the skin. Especially good for dry, sore or cracked skin.

Bergamot - antiseptic and healing.

Black Pepper - warming and penetrating, improves local circulation.

Cajeput - warming and penetrating, improves local circulation.

Chamomile and Yarrow - both strongly anti-inflammatory and decongestant to the tissues.

Cypress - astringent and tonic to the blood vessels, circulatory stimulant.

Eucalyptus - anti-viral and antiseptic.

Frankincense - strongly tonic effect upon the skin, improving cell wall integrity and tissue tone.

Helichrysum - tissue healing and cell regenerator.

Lavender - relaxing and soothing to the tissues, reducing irritation and inflammation.

Marjoram - warming and penetrating, improves local circulation.

Patchouli - antiseptic, anti-inflammatory, anti-fungal and a cell regenerator. Especially good for cracked or weeping skin.

Peppermint - cooling and anti-inflammatory. Used on areas of swelling and burning.

Pine - refreshing and stimulating, relieves muscular pain.

Rose Geranium - astringent and healing. Especially useful for balancing sebum production, used to treat dry or oily skins.

Rosemary - warming and stimulating.

Sweet Birch - warming and anti-inflammatory.

Tea Tree - potent anti-fungal and anti-bacterial. Used wherever there is infection or infestation.

Infused Oils
Made by soaking herbs or flowers in light vegetable oil (usually almond or grapeseed).

Arnica - reduces swelling and pain in inflamed areas. Strong cardiac stimulant - should never be taken internally or applied to broken skin.

St. John’s Wort - The oil made from the flowers is strongly anti-viral, anti-inflammatory and tissue healing, helps to relieve pain.

Calendula - The flower heads are anti-inflammatory, anti-septic, antifungal, tissue healing. They are used for all inflamed or infected skin conditions.

Chamomile - The flower heads and essential oil are used. Antiseptic, anti-inflammatory, soothing and relaxing.

Chickweed - Cooling, soothing and anti-inflammatory. Useful for all itchy or irritated skin conditions.

Comfrey - The root or leaf may be used. It is soothing, relaxing and healing. Contains allantoin which is a cell proliferator and tissue healing agent.

Juniper - Resins and essential oils from the berry are warming, stimulating, and relaxing to the muscles. Useful for sprains and strains as well as rheumatic stiffness.

Fixed Oils
Cold pressed from the plant, typically the seed. They are used as base or carrier oils.

Evening Primrose and Borage - anti-inflammatory and tissue normalizing.

Rosa Mosqueta - pressed from rose hips in Chile and is anti-aging and rejuvenative to the skin.

Aqueous Herbal Creams

Light, soft, water-based creams made of pure and natural ingredients. These are excellent for custom blending with herbal infusions, tinctures or essential oils.

Base Cream
A non-medicated, unscented, uncolored cream, suitable for custom blending with essential oils, infused oils or tinctures.

Calendula Cream (Marigold)
Our most popular general purpose cream. Rich, but light, it soothes and nourishes the skin. Calendula is well known to be anti-inflammatory, anti-septic and healing to the skin.

Chamomile Cream
A soothing cream traditionally used for its anti-inflammatory healing effect.

Comfrey Cream
A healing cream for all minor skin abrasions. Comfrey contains allantoin, an ingredient that acts as a cell proliferant, speeding tissue healing and recovery from injury.

Chickweed Cream
A cooling and soothing cream for all itching and skin irritations. Due to its high chlorophyll and water content, this is a very cooling, soothing cream.

Witch Hazel Cream
An astringent cream suitable for varicose veins, hemorrhoids and puffy eyes.

Other Skin Creams

Seven Herb Cream
A traditional blend of herbs for itching and minor fungal infections. Especially good for yeast infections: Calendula aqueous herbal cream, Essential oil of Tea Tree and Tinctures of Wild pansy, Bayberry, Goldenseal, Myrrh, and Thyme.

Arnica & Comfrey
A traditional recipe using Arnica which reduces bruising and swelling and Comfrey to promote tissue healing. CAUTION: Do not use when skin is broken. Comfrey aqueous cream with tinctures of Arnica, Witch Hazel, and Essential Oil of Peppermint.

B.J. & C Cream
This is the same formula as Dr. Christopher’s salve, but is made with Comfrey aqueous cream combined with tinctures of White Oak bark, Comfrey root, Gravel root, Lobelia, Black Walnut, Marshmallow root, Wormwood, and Skullcap.

Dermaheb E Cream
A healing cream for bloated irritable skin. Aqueous blends of Chamomile and Chickweed, Aloe vera juice, Borage oil, and essential oils of Lavender, German Chamomile, and Tagette.

Dry Skin Cream
A rich nourishing cream for dry skin conditions. Rich facial cream. Chamomile cream base containing Evening Primrose, Vitamin E, Avocado, Carrot, and Rose Hip oil and essential oils of Frankincense, Lavender, and Carrot seed.

Green Cream
For dry and irritated skin. Aqueous creams of Comfrey and Chickweed with tinctures of Aloe vera and Essential Oils of Lavender, Bergamot, Rose Geranium, Peppermint, and Benzin.

Healing Cream
Myrrh and Goldenseal are considered strongly astringent while Comfrey is healing to the skin. Comfrey aqueous cream with tinctures of Myrrh, Goldenseal, and Gotu Kola.

Plantain Cream
A gentle soothing cream used to relieve rashes and itchy irritation from bee stings to nettle rash and other skin complaints. Base cream combined with tincture of Plantain and essential oils of Blue chamomile, Peppermint, and Camphor.

Vena Tone Cream
Contains astringent herbs to reduce swelling and soothe irritated Veneers or varicose veins. Witch Hazel aqueous cream with tinctures of Horse Chestnut, Red Oak, Essential Oils of Frankincense, and Cypress and infused oil of Calendula.

Peppermint Foot Lotion
Cooling and antispasmodic foot lotion. Antibacterial and soothing for tired, aching feet. Unscented hand and body lotion with Calendula tincture, and Essential Oils of Peppermint and Tea Tree

Salves

Traditional recipes made with beeswax and olive oil, these form a hard salve that is long lasting and economical to use.

Arnica Salve
To reduce swelling and bruising.
CAUTION: Do not use when skin is broken. Made from Oils of Arnica, essential oils of Chamomile, Yarrow, and Pine with beeswax.

Arthro Rub
Herbal and Essential Oils to warm sore or tired muscles. Especially effective for arthritis. Infused oils of Comfrey and Juniper (in grape-seeded or Almond Oil), Essential oils of Sweet Birch, Marjoram, Black Pepper and Rosemary, Fixed Oil of Mustard: with beeswax.

B.F. & C Salve
Dr. Christopher’s famous formula in a convenient form for all joint and muscle disorders. The following herbs are infused in Olive Oil, and then beeswax is added to make a salve. White Oak bark, Comfrey root, Gravel root, Lobelia, Black Walnut Hulls, Marshmallow root, Wormwood, and Skullcap.

Lipex Salve
A very soothing and healing balm for chapped lips and used to help prevent cold sore outbreaks. Infused oils of St. John’s Wort, Vitamin E. oil, Essential oils of Eucalyptus, Peppermint and Tea Tree, with tincture of Thuja occidentalis (Arbor vitae): with beeswax.

Derma Herb E Salve
